“The Astral Shuffle”

*Well, we danced on moonbeams and glided on light,
spinning our whirls on this starlit night.
We were soaring on laughter from the “Causal Stomp”,
gliding onward still to the “Hands of Light Hop”.*

*A loved shared by all, the ultimate of truth,
where happiness prevailed, it was not at all uncouth!
Where smiles grew stronger between loving souls,
from records of all time are tenderly told.*

*“Seek and ye shall find” as the story unfolds,
is the key of all time on a multitude of worlds.
So, embrace the knowledge that you're a perfect double,
as you continue to dance the “Astral Shuffle”.*
