

What's on your horizon?

Morgan

Chai

"Yesterday"

Have you ever notice at times when touched,
the spark, the glow, the torment inside?
So touch me more, touch me much,
I must know, from whom I hide.
From days gone by and years of past,
I've loved with you and you of me,
can it be, that a love will last,
of this touch, oh can it be?
